SPAZIO

PRESSURE COUPLING SYSTEM

PRODUCT DESCRIPTION

Spazio 0 is the innovative adjustable pressure coupling system designed for panel mounting on walls and ceilings, which allows the flush fastening of the panels. This means that this system leaves no air gap between the two panels, which therefore remain perfectly in contact with each other, thus limiting the overall space consumption.

COMBINATION

Spazio 0 perfectly matches with Safetyfix fall-arrest and fall restraint solutions.

BENEFITS

- Easy installation (one hole, no rework)
- Precise and fast assembly
- +/- 4mm adjustment in each direction (8mm total)

APPLICATIONS

ACCESSORIES

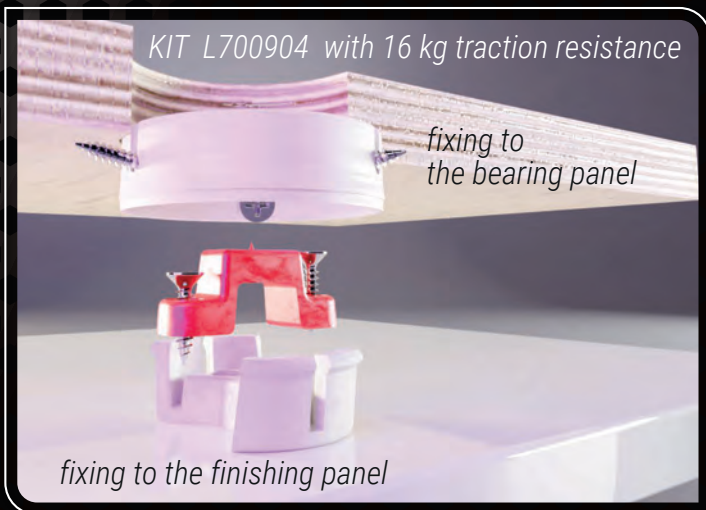

- collar
- small bridge
- clip

PRODUCT VARIANTS

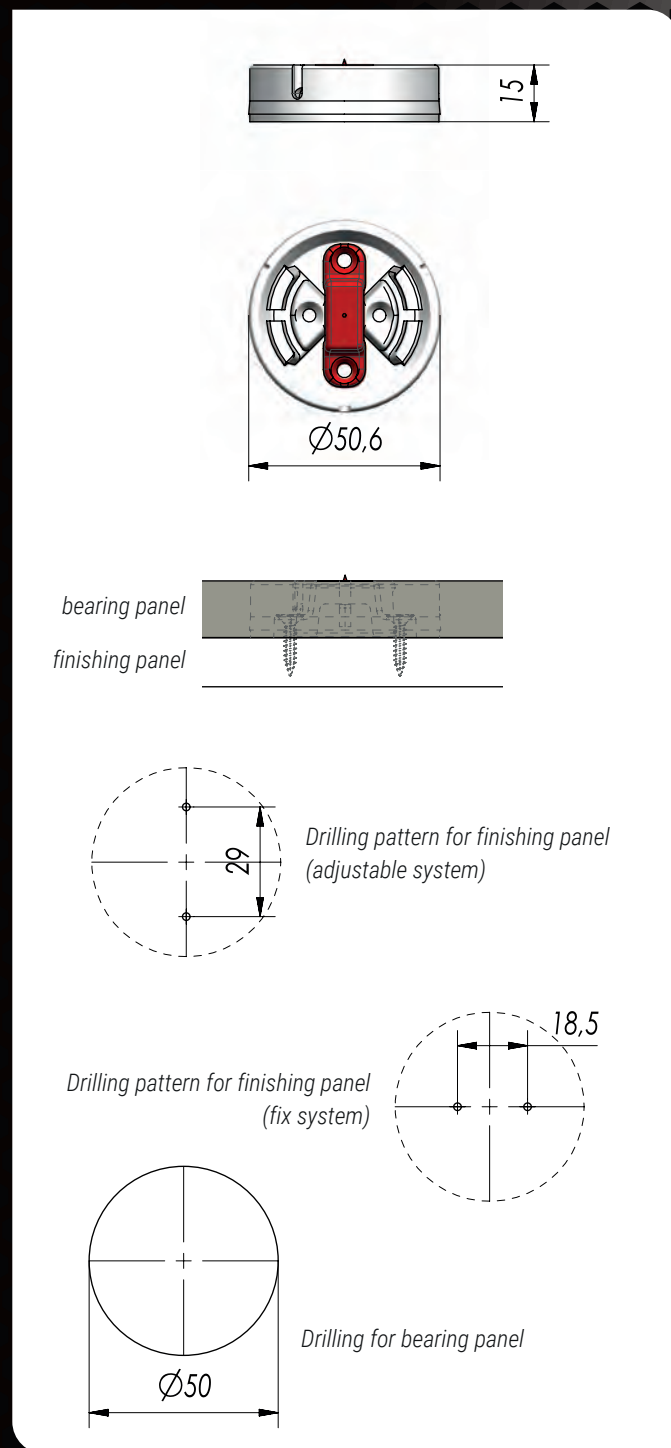

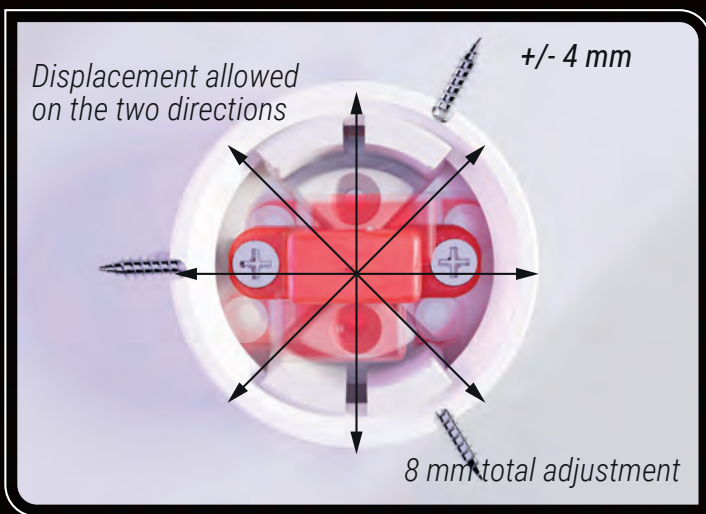

- **SPAZIO 0 Hard** (cod. L700904) with 16 kg traction resistance
 - **SPAZIO 0 Medium** (cod. L700905) with 8 kg traction resistance
 - **SPAZIO 0 SafetySpring** (cod. L700906) with 10 kg traction resistance
- Ø 3.5 mm countersunk flat head screw - screws not included.

When using adhesives or paints, pay attention to whether they are compatible with polycarbonate.

INSTALLATION

Spazio 0 allows a overall 8 mm (+/- 4mm in any direction) mutual displacement of bearing and finishing panels to allow an ideal positioning of the cladding. If necessary, Spazio 0 allows the possibility of statically binding the support panel to the finishing one, avoiding any type of displacement: simply screw the lower component to the panel and do not use the small bridge.

Kit code	Name	Material	Weight	Hole diameter	Tensile strength	Adjustment	Packaging
L700904	Spazio 0 Hard	Recyclable polycarbonate	22 g	50 mm	16 kg	8 mm	100 pcs.
L700905	Spazio 0 Medium	Recyclable polycarbonate	22 g	50 mm	8 kg	8 mm	100 pcs.
L700906	Spazio 0 SafetySpring	Stainless steel and Recyclable polycarbonate	30 g	50 mm	10 kg	10 mm	100 pcs.
